

Our Lady of Peace Catholic Primary and Nursery School

Year 4

Term: Lenten 1

Homework Booklet

Welcome to your homework booklet for this half term.

In this booklet you will find six weeks' worth of spellings. You need to learn these spellings carefully by using the look, say, cover and write method. You can also login to your '**Spelling Shed**' account to practise your spellings (this will be given to you by your class teacher). You then have some space at the bottom of the page to put each of your spelling words into a sentence.

Your teacher will test you on your spellings each week.

Login to your '**Times Tables Rock Stars**' account to practise your times tables!

Your teacher will test you on your times tables each week.

Login to your '**Bug Club**' account for online reading challenges!

BRAIN BUILDERS

Set: Monday 4th January

Due in: Monday 8th February

Children:

As part of our history topic we will be looking at Mayans. We would like you to produce an information text with subheadings, pictures and filled with facts.

You could:

Do some research in the local library or on the internet. You can then write some information about who the Maya were, perhaps including information about where they were located, their beliefs and how they lived.

Remember you can be as creative as you like. You may want to add enveloped with hidden information, flaps with questions and answers.

The choice is yours!

Maths for Lentern Term 1

Multiplication and Division

Children will recall and use multiplication and division facts for multiplication tables up to 12×12 . Pupils will use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers.

Pupils will solve problems involving multiplying and adding, including using the distributive law to multiply two-digit numbers by one-digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects.

Measurement and area and Fractions

Pupils will find the area of rectilinear shapes by counting squares. Pupils will recognise and show, using diagrams, families of common equivalent fractions. They will count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten. Pupils will solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number. They will add and subtract fractions with the same denominator.

Decimals

Pupils will recognise and write decimal equivalents of any number of tenths or hundredths. They will find the effect of dividing a one or two digit number by 10 or 100, identifying the value of the digits in the answer as ones, tenths and hundredths. They will solve simple measure and money problems involving fractions and decimals to two decimal places. Pupils will convert between different units of measure [for example, kilometre to metre]

Please check homework set on MyMaths website.

Spellings

Week 1

Spelling practise: Look, say, cover, write, check

©BNP Design Studio - IllustrationsOT.com/1113255

Look	S a y	Cove r	Write	Check	Write	Check
Accept						
Except

Additional Mathematics and English Homework

Some parents may wish their children to undertake additional maths and English homework.

The school endorses the use of 'Workabooks', which are carefully planned to support children with their learning, consolidate classroom teaching and provide an organisational structure which will enable pupils to manage homework effectively with positive results. Parents can order and purchase these books directly from Workbook at <http://www.workabook.co.uk>. Parents can access the answers to each activity through the Workbook website.

Please note that Workabooks are intended for home-use only. There is no requirement for children to bring their Workabooks into school.

A sample of the Workabooks can be viewed at the main school office or alternatively more information can be found at <http://www.workabook.co.uk>

Eleven books in the series cover English and mathematics for Years 2 to 6
