

Dear Parent/Carer

Did you know that last year Daisy's Dream supported 454 families (that's 728 children and young people) who were facing, or had experienced, the death of someone they love? Some 14% of those families were from the Slough area; a few may even have been pupils at Our Lady of Peace Catholic Primary and Nursery school.

Our work in homes and schools across Berkshire is incredibly valuable, and this is reflected in the increasing demand we see year on year. In fact, this January we saw the highest number of requests for support we've ever had in one month, and we've been around for 22 years!

Being able to provide our services free of charge is a vital part of what we do, but it can be challenging to raise the money we need. After all, we are a small, independent charity raising all our own funds. It is the support of our brilliant local communities that keeps us going but we need your help.

If every pupil at your school donated just £1, it could help us to support a local family for a year. That would mean 1:1 support for the child or young person, as well as over the phone advice for their parents and/or teachers, and attendance at one of our specialist group events. What a difference your school could make!
